

# DUBLIN BOTTLING WORKS

One of the world's oldest soft drink bottling plants, and the only one which has always used pure cane sugar – the secret to why our unique line of sodas offers a sweeter, cleaner taste!

## OLD DOC'S SODA SHOP

Stroll up to our beautifully restored soda foundation and turn back the pages to the way our grandparents enjoyed their fountain drinks. And top it off with a sandwich and a delicious ice cream treat.

## MUSEUMS

Two amazing museums tell the history of the oldest Dr Pepper bottling plant in the world, and display a huge collection of soda memorabilia. Walk through our 1930s-era botting line, a far cry from today's highly mechanized lightning-fast bottling process.
